ADCOR AR SYSTEMS

Adcor currently manufactures AR piston weapons with barrel lengths ranging from 10" to 24" for both .223 and 5.56 calibers, along with receivers and rail systems for both gas impingement and piston style weapons. Piston system for cleaner more reliable operations. Free floating barrel for improved accuracy. Dust wiper to protect upper receiver and components. Removable folding front piston sight for ease of cleaning. Ambidextrous forward placed charging/forward assist handle to help maintain target acquisition. Fully integrated rail system. Adjustable cyclic rates for use with different ammunition or suppressors. Toolless maintenance system allowing components to be removed with bullet or firing pin.

AR-30™ RIFLES

Based on the same revolutionary technology as its big brother the AR50-A1™, the smaller AR-30 offers the same amazing results. Boast a 26", free floating, chrome moly barrel. Also features a rugged single stage trigger and a 5 round detachable magazine for fast reloads. Features a metallic stock to action interface. Patented V-Lock™ bedding wedge and V-Block stock assure absolute strength and repeatability for superb accuracy. Aluminum stock reinforces the receiver like a bench rest sleeve. Includes Bi-pod adapter, Owners Manual, 10 min. sight base, one five round magazine and covered by Limited Lifetime Warranty.

AR50 RIFLE

The patented V-Lock bedding wedge and V-Block stock assure absolute strength and repeatability for superb accuracy. The aluminum stock reinforces the receiver like a bench rest sleeve. Independent testing has proven the AR-50A1 muzzle brake to be the best in the industry for both recoil control and accuracy. It scrapes away turbulent muzzle gasses and lets the bullet break into clean air for amazing accuracy.

M15™ SERIES RIFLES

The semi-automatic civilian version of the famed M16A2 rifle, the rifle you carried in the service. Durable and reliable for long field service, its superb accuracy is based on the double-lapped and chrome lined barrel. Includes ArmaLite's® adjustable front sight base, allowing the rifle's rear sight to be centered. An outstanding tactical rifle, excellent for Law Enforcement or entry level Service Rifle training. The M15A4™ offers the flexibility of the Picatinny rail applied to a standard grade.223 caliber rifle. Light recoiling and accuracy.

AR10(T) 260 REMINGTON

This is ArmaLite's legendary "T" to a "tee". Its 22" stainless steel Match barrel and National Match trigger perfectly complement the flat shooting, ultra-accurate .260 Remington cartridge. Dead on accuracy. Especially suited for younger or novice shooters because of its low recoil.
