PANTHER MARK 12

Designed to meet the needs of certain Special Forces, the MK12's configuration is the result of input from respected names in the military training community and the operators themselves. With an 18" free-floated, Black-Tefloned 416 stainless steel barrel at its core, the additions of a two-stage trigger group, four-rail free-floating handguard, Midwest Industries flip-up front sight gas block (2008 models) or Yankee Hill flip-up front sight gas block (older models), Midwest Industries flip-up rear sight, Magpul Winter Trigger guard, CAA G27 grip, and LMT SOPMOD 5 position collapsible buttstock, the MK12 embodies the accuracy and versatility required by the nation's elite troops. **Scope Not Included.**

BLACKOUT[®]

Based on the innovative 300 ACC[®] Blackout[®] cartridge, the Blackout[®] is offered in 2 configurations. Both are 16" heavy, 4150 chromlined, equipped with the new DPMS M111 modular free float tube, allowing you to choose how much rail you want, and where you want them. This rifle is either equipped with an Advanced Armament Corp[®] Blackout[®] suppressor adapter or an inert, slipover mock suppressor. The 300 ACC[®] Blackout[®] requires no special bolts, or not special magazines. Included with these rifles is AAC's CAN-U informational pamphlet to better educate and inform you about the myths and realities of legal suppressor ownership.
